LD-002H & UW-01 Combo

We've built a combo to help you save \$80, and get you started using your new printer today! Don't worry about purchasing resin, cleaners, wash containers, and DIY curing stations separately, choose this combo to get the best results from your printer the first day.

In this combo:

- 1x LD-002H
- 1x UW-01
- 1x 500g Water washable resin*
- 1x 500g ABS-Like resin**

*Resin colours subject to availability.

**ABS-like resin requires alcohol to clean, sold separately.

ESSENTIAL UPGRADES

MK8 Extruder Upgrade

This modified MK8 Extruder has a filament guide tube, all screws, spare drive gear, and upgraded Bowden tube fitting. It will also allow to print faster with sustained quality and no risk for grinding the filament. Frankly, it looks amazing, and performs better than the plastic version.

Suitable for the Ender-3 series, and CR-10 series.

COLOUR	PART# // SKU#	PRICE
Black	4001020012//125990	\$12.99
Grey	4001020009//125991	\$12.99
Red	4001020011//125407	\$12.99

Filament Sensor Kit

Don't waste filament or fail a print again because of breakages or run-out!

With a filament sensor you can rest easy. The blue indicator on the sensor means everything is ok, when the light turns out a breakage is detected.

VERSION	PART#//SKU#	PRICE
Ender-3 V2	4001090008//125760	\$11.99
CR-10 V2/ Ender-5 Plus	4001090002//126161	\$11.99

BL Touch Auto-Leveling Sensor

Using an auto leveling sensor does away with the need to manually adjust the bed. Automatically level your printer to the bed at the beginning of each print for a more reliable first layer.

VERSION	PART#//SKU#	PRICE
32 Bit	4001010007//125402	\$92.95
MACHINE DIMENSION		
8 Bit	4001010005//126169	\$92.95

ESSENTIAL UPGRADES

CR Touch Auto-Leveling Sensor

The CR touch is an upgraded version of the BL touch made independently by Creality. It has a multi-point detection system, smart calibration compensation, high precision, low power consumption, and is easy to install. Its compatible with nearly every Creality series printers.

PART#	SKU#	PRICE
4001010026	126026	\$59.99
COMPATIBLE SERIES:	SEE WEBSITE FOR	EXPANDED LIST
Ender-3	Ender-5	CR-10

Capricorn Tubing Kits

PTFE tubing is heat resistant up to 260°C, it is smoother when feeding, and wears longer.

KIT	PART#//SKU#	PRICE
Tubing & Fitting	4007010002//125785	\$19.99
2m Tubing	4004200001//126168	\$24.99
Tubing & Extruder	4007010003//126167	\$29.99

See our website for full details and additional images.

magigoo original

All you need for sure adhesion of 3D prints Magigoo is an easy to use 3D printing adhesive designed to address 'the first layer not sticking problem'. Magigoo ensures a strong adhesion to the hot plate. But the magic starts when printing is ready: just wait for the plate to cool down and then remove your prints with just a finger flick! In addition, Magigoo helps to prevent warping. Isn't it magic? Regardless of you being a hobbyist or professional - it is extremely rewarding to have a 30 hour print complete without any warping and having it release easily once cooled.

OVER 100 APPLICATIONS!

- ABS, PLA, PETG, HIPS, ASA, TPU
- Easy application
- Easy release
- Easy clean
- No smell
- Non-toxic
- No additional tools needed
- Easy to transport
- Nicer print finish

IMPORTANT NOTE : THE APPLICATOR HAS AN ACTIVE SPRING VALVE, WHICH ACTIVATES WHEN APPLICATOR IS PRESSED AGAINST THE BUILD PLATE. PLEASE DO NOT PRESS THE BOTTLE AS "KETCHUP BOTTLE" , OTHERWISE THE APPLICATOR MAY POP OFF. BOTTLE MAY BE SLIGHTLY SQUEEZED, ONLY WHEN THE NIB IS PRESSED AGAINST THE BED AND IT MAY BE NECESSARY ONLY IF BIGGER FLOW IS REQUIRED. BOTTLE MUST NOT BE SQUEEZED WHEN CAP IS OFF ANY OTHER TIME AS IT MAY RESULT IN GLUE POPPING OUT OF THE BOTTLE.

SIZE	SKU#	PRICE
50mL	126125	\$22.49
120mL	Not stocked	\$-

NB! Do not squeeze the bottle when applicator spring valve is not active - it may result in applicator popping out.

TOOLS & MACHINES

INDUSTRIAL PLASTICS
& PAINTS

UW-01

The Creality UW-01 Wash & Cure Station is a must have for all resin printer owners! The UW-01 simplifies your curing process, and reduces the risk of spill resin, by having an all-in-one setup. No need to fuss with multiple machines to achieve a beautifully cured print.

\$185.99

SKU# 125686

PART# UW-01

Curing Light Kit

3D printer UV resin curing light is capable of quickly curing models with its soft and stable light, greatly shortening curing time. Suitable for most LCD 3D printers.

\$59.99

SKU# 125800

PART# 4007010023

MK-168 Ultrasonic Cleaner

Stainless steel tub, lightweight ABS shell, compact design, and easy 1 button start.

\$89.99

SKU# 125801

PART# 4008020012

Ender Electric Screwdriver

This Creality Ender electric screwdriver is perfect for the hobbyist in your life. Reduce fatigue, and speed up assembly/disassembly times!

The screw driver comes has a handy lanyard, non slip rubber grips, and an ergonomic design. Not only is it re-chargeable, it also has a modern USC-C plug!

\$57.99

SKU# 125689

PART# -

Ender Precision Screwdriver Set

An Ender precision screwdriver kit by Creality for all the tasks requiring small and precise tools.

Kit includes 21 precision tips, and a carrying case.

\$34.99

SKU# 125693

PART# 4008060007

Ender 24pc Ratchet Set

This ratchet set features a modular handle to help you get into those tight spaces regular ratchets just can't reach. 24 chromium-molybdenum alloy steel bits are included in the set. The ratchet is a lightweight hardened forged aluminum. The ratchet is a 6.2 degree, 58 tooth design.

\$32.49

SKU# 125690

PART# 4008060005

SM Multi-Functional Enclosure

- Insulating, fire & flame retardant, & water resistant
- LED lights included
- Collapsible metal frame
- Temperature & humidity sensor

\$129.99

SKU# 125795
