FLOORING PRODUCTS

CABLE DEFENDER

Structural bridge for use anywhere where you need cables or hoses to be protected from foot or vehicular traffic. Designed for all weather performance and lengths can be joined together for changing needs.

WORK STATION MATS

Workstation Anti fatigue Mats are perfect for both commercial and industrial environments. They reduce fatigue and improve morale and productivity. 36" x 36"

TRUCK MATS

Rubber truck mats
Truck box protection and load stabilization. Easy to clean. Checker plate design. Flip over to use as Barn Mat 1/2" thick

\$95⁹⁹ each

HANDI-TREADS

Will not rust or corrode and provides the best slip, trip and fall prevention. Its raised button surface grips on to your shoe or foot and provides instant traction.

DURAGRID Comfort Tiles

Ultimate cushion and comfort. Low maintenance great for wet areas. 10 yr warranty. 5 colors.

12 inch x 12 inch
1/2 inch Thick

\$7⁹⁹ each

NON SKID CAUTION TAPE

A Mineral abrasive grit-coated polyester film, one side pressure sensitive adhesive with removable liner. Meets and exceeds OSHA and ADA federal guidelines. 2, 4 & 6" widths 60 ft Rolls

For the best coverage, always choose a Floor Epoxy that has 100% Solids

ROCK SOLID FLOOR COATING

With over 80 years in commercial-quality flooring, it is the mission of RockSolid® to provide a true, one-day do-it-yourself Polycuramine® flooring system. Easy-to-use, quick-curing and lifetime guarantee make this product ROCKSOLID. Great for the garage, restaurant floors, showroom and more.

\$225⁹⁹ Kit

The HARDCORE HARD FLOOR ROKREZ PRO INDUSTRIAL FLOOR COATING

A uniquely formulated two-component, 100% solids, high-build epoxy that provides heavy-duty protection for industrial floors. ROKREZPRO's extended working time makes the product easy-to-use and enhances adhesion by allowing maximum surface penetration. ROKREZ also meets USDA requirements for incidental food contact.

LAVA GRIP

Lava Grips silica formulation pattern offers superior traction with superior comfort. Proven in the oil fields of Alaska. Peel & stick traction built into flexible, high-friction polyurea

2" x 48", 6" x 48", 12" x 48"

Confused About which Antifouling Paint to use . . . Just Ask Us . . . We can Help!

Interlux BRIGHTSIDE

Brightside polyurethane is easy to clean, resists staining, and has great abrasion resistance. Available in a wide range of bright, crisp colors.

Interlux EPOXY PRIMEKOTE

Epoxy Primekote® is a multi-purpose two-part epoxy primer that is the recommended primer for use as part of a system to resurface cracked and crazed gelcoat prior to the application of topside paint and over clear epoxies to eliminate the effects of amine blush. It's bright white color makes it ideal for priming bilge and locker areas.

MagicEzy 9 SECOND CHIPFIX

MagicEzy 9 Second Chip Fix is a revolutionary nano filler that repairs and colors cavities...Fast. It's one-part formula and built in leveller make it super easy to use. Available in 11 colors. **\$ 24.99 ea**

MagicEzy HAIRLINE CRACK REPAIR

Repair hairline cracks in Gelcoat with ease with MagicEzy's one-step process. Clean crack, apply Crack Fix and you are done. 13 colors available to match your Gelcoat **\$ 24.99 ea**

Sikkens CETOL MARINE

Cetol® Marine with Next Wave™ UV-absorbing technology is a durable translucent protective wood finish for use above the waterline on interior and exterior woods. Contains an advanced UV absorber that provides greater protection, durability and longevity

Interlux MICRON CSC

Uses Micron® Technology to provide excellent, long lasting antifouling protection against all types of fouling. Controlled polishing rate reduces build-up of old coatings and minimizes sanding. Haul and re-launch without repainting.

Interlux ORIGINAL Spar Varnish

A traditional spar varnish that combines ease of application with good gloss and durability which makes it an ideal choice for use on interior and exterior woodwork such as cabin trim, handrails, doors and coamings.

Interlux INTERDECK

Interdeck provides an excellent slip resistant finish with a tough polyurethane resin that protects decks against everyday wear. It contains a fine aggregate and will apply easily on all substrates. Interdeck has a low sheen finish.

High Gloss Varnish EPIFANES

Clear Varnish, known around the world, is considered the ultimate in high gloss finish. Based on tung oil, phenolic-modified alkyd resins and maximum U.V. absorbers. It has outstanding protection for all marine and household woods and can be applied to interior and exterior woods above the waterline.

MARINE COATINGS

SIKAFLEX

Sikaflex®-291 is a 1-component, marine grade polyurethane elastomeric adhesive and sealant. Used by many boat builders, its fast cure time makes it ideal for applications where speed is important. Excellent adhesion to gelcoat, fiberglass, metal and wood that can be gunned or brushed into place.

Interlux Fiberglass Bottomkote XXX

A hard modified epoxy, fast dry anti-fouling paint with clean stable colors that has been developed to provide effective season-long protection on all power and sailboats. Use on the underwater areas of fiberglass, wood, and properly primed metal (except aluminum) boat hulls.

Interlux InterProtect

A unique two-part epoxy coating developed to protect fiberglass hulls from water absorption, which can lead to osmotic blistering. The Interprotect® system is the system of choice for repairing gelcoat that has already been damaged by osmotic blistering.

Rust-Oleum® TOPSIDE Marine Enamel

Topside Paint provides gloss retention and UV resistance in extreme weather conditions. Apply to fiberglass, wood or metal surfaces above the waterline. Flexible formula is easy to apply.

ART & MOLD MAKING

WORBLA

A non-toxic thermoplastic made from renewable natural raw materials, and is a popular material for Cosplay, costume design, jewelry, props, models, and arts & crafts. Simply cut with scissors or a Dremel tool, and heat-form to your desired shape!

39"x59" Tan, Black & Clear

Smooth-On SMOOTH-CAST

This series of liquid plastics are ultra-low viscosity casting resins that yield castings that are bright white and virtually bubble free. Vacuum degassing is not necessary.

Smooth-On MOLD MAX

Will reproduce the finest detail and are suitable for a variety of industrial and art related applications including making molds for reproducing prototypes, furniture, sculpture and architectural elements.

Smooth-On OOMOO Silicone

Easy to use Silicone compounds with a one-to-one by volume mix ratios. OOMOO™ offers very low viscosity for easy mixing and pouring, and vacuum degassing is usually not necessary.

Tarbender

Ideal for Live Edge Finishing

A UV resistant clear liquid epoxy that can be poured or brushed over a variety of surfaces to provide a strong, high build, high gloss coating.

Smooth-On Smooth-Sil

Smooth-Sil™ Platinum Silicones cure at room temperature with negligible shrinkage. With different hardnesses to choose from, these products offer tremendous versatility for making production molds

FOAM CLAY

Foam clay starts out as a foamy putty like clay that stretches and blends back into itself beautifully. The foam clay air dries into a high density foam which can be cut, sanded, heat formed and glued to your costume!

ENVIROTEX pour on EPOXY

Cures to a thick, glossy coating in about eight hours. Great on bar tops and burls.

\$38.99
16 oz

Smooth-On Products are the Popular Choice for Hollywood North

ETI EASY CAST CASTING EPOXY

EasyCast is a two component, low odor, solvent free, clear casting epoxy. It's ideal for casting small decorative items such as kitchen and bathroom knobs. Color EasyCast with Castin'Craft opaque pigments for solid colors, transparent dyes for that colored glass look or granite powders for the look of stone. Easy Cast is the perfect product for those large projects like River Tables and other Live Edge Projects

MODERN MASTER METALLIC PAINTS

These products have been the industry standard in Metallic Paint for more than a decade! There is a color for every project in the 47 standard colors, which include 5 unique, sheer colors. You can inter-mix any Metallic Paint Collection colors together, creating your own on-site custom color. These high quality finishes are used by Artist, Set Designers, Theme Parks, and Movie Makers to fool the eye into believing that everyday objects are more than they really are. Dead flat varnishes are also available to protect your finished product.

MIXOL UNIVERSAL COLORANT

MIXOL is one of Europe's leading brands of multi-purpose tinting concentrates and over the last 45 years has proven itself as a reliable partner to individual craftsmen and the colour tone industry. Binder-free multi-purpose tinting paste enables the user to mix 33 MIXOL and 3 metallic effect concentrates on-site to achieve the desired color.

LED Security Lights require no wiring . . .
They are battery powered!

Wireless LED Spotlight with NetBright® Technology

MR BEAMS 2 Pack

Mr Beams® intelligent NetBright® Spotlights are an affordable, “smart,” outdoor security lighting solution. The LED outdoor spotlights contain NetBright technology, which allows the spotlights to communicate with each other, so when they are set to the same channel they operate in unison, even if only one light detects

motion. Add up to 50 spotlights to each channel to illuminate large areas at once. And like all Mr Beams lights, these battery-powered LED outdoor spotlights can be installed anywhere in just minutes with no electrician or wiring required.

\$109⁹⁹
pkg

Mr Beams Motion Sensing SECURITY LIGHT

This High Performance Outdoor Motion Sensor Security Light combines Mr Beams signature features, including motion activation, auto shut off, wire-less installation and long battery life, with intelligent NetBright technology, which allows NetBright lights to communicate with each other. Two adjustable heads, 500 lumens and the ability to create up to four separate lighting zones make the light a customizable security lighting solution. Batteries required for operation.

FIBREGLASS

HI TEMP WAX

Superior hard release wax formulated from highest quality Carnuba wax blended with organic process aids. Easily buffed to a high gloss

LONG STRONG

The strongest of the water-proof putties due to its high fiberglass strand content.

.75L

FEATHERITE

Smooth creamy formula is easy to apply and sand.

.75L

DURAGLAS

Glass filled polyester putty that can be easily sanded.

.75L

FG REPAIR KIT

Contains everything you need to repair an area up to 24"x24". Resin, catalyst, cloth and mixing tools.

MARINE-TEX EPOXY PUTTY

A creamy paste consistency that easily fills gaps, and can be shaped to rebuild damaged components. Marine-Tex paste provides water-proof repairs that can be used with fiberglass Gelcoat

Polyester GELCOAT

A surface coat that provides a cosmetic enhancement and exposure improvements to a fiberglass laminate. Requires MEKP catalyst and Air Dry Wax to promote a full cure. See mixing chart provided

Polyester GP RESIN

An orthophthalic Marine Grade General Purpose laminating resin. Requires the addition of MEKP Catalyst for curing. MEKP sold separately

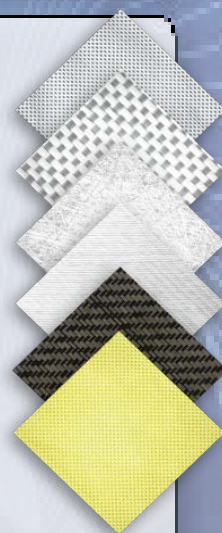

Polyester SURFBOARD RESIN

Water clear finishing resin designed for surfboards, sailboards, and boats. Requires the addition of MEKP catalyst for curing.

FG FABRIC

We have reinforcement fabric for every application. Including Cloth, Mat, Woven Roving, NEPAL, Carbon Fibre and Kevlar. Contact your local store for sizes and prices

FG FILLERS

We carry a full line of fillers to add to fiberglass and epoxy resins. These fillers can add strength, durability, sandability, can stop your product from sagging and even create a non skid finish for areas that have high traffic.

Match n Patch GELCOAT REPAIR

Permanently repair nicks, gouges and scratches in fiberglass hulls and decks. Match to almost any color. Cures hard in one hour. Contains colors, polyester gel coat paste, hardener, release film, mixing sticks, blending chart, instructions

Disposable RESIN BRUSHES

Ideal for Resins, Pastes and Adhesives where cleaning is not an option

1", 2", 3", 4"

AB FOAM KIT

When mixed together will expand to 25 times its volume. Ideal for cavities and voids or for insulation for tanks and holds. Working time 30 sec mixing & 30 sec to pour in place

Fiberglass DECK COATING

Fiberglass provides the toughest, longest lasting, totally waterproof coating possible. It is a coating that can easily be applied by professionals and amateurs alike. Fiberglass is only recommended for covering clean dry plywood. Call us with your deck's measurements and we can provide a quote and application instructions

Ask Us how to Finish Live Edge Furniture
We have the Products to get the Look!

WEST SYSTEM epoxy cures to a high-strength plastic solid at room temperatures, by mixing specific proportions of liquid epoxy resin and hardener. This highly moisture-resistant plastic adheres to a wide range of materials, making it ideal for projects that require water and chemical resistance, and strong physical properties for structural bonding. Select from a range of hardeners and additives that allow you to tailor the mixture's handling characteristics and the physical properties of the cured epoxy to suit your working conditions and specific coating or bonding application.

System Three SILVERTIP EPOXY

SilverTip Epoxy is a medium-low viscosity, liquid epoxy resin system that has been optimized for coating and reinforcing fabric saturation in wood-composite boat building. It will outperform any other product in these applications. SilverTip Epoxy is designed for use with fiberglass, Kevlar®, Dynel® and graphite as well as on bare wood. It has superior wet-out characteristics with little tendency to foam or trap air. Features a convenient 2:1 mixing ratio. Choose between a Fast or Slow Hardener to suit your needs.

System Three T-88 Structural Adhesive

A two-part adhesive that will cure to any thickness without shrinkage. It cures to an amber color that is virtually invisible when varnished. 1 to 1 mixing ratio, can be used on damp wood. Also available in self mixing caulking cartridges.

EPOXY RESINS

WEST SYSTEM SIX10 Epoxy

Six10's shear thinning properties make it "thinner" as it's worked. It can be easily tooled into a non-sagging fillet. With a long open time but fast thru-cure, Six10 stays workable in the static mixer for 42 minutes, making it practical for long or complicated assemblies.

WEST SYSTEM G/FLEX

A toughened, versatile, liquid epoxy for permanent waterproof bonding of fiberglass, ceramics, metals, plastics, damp and difficult-to-bond woods. G/flex 650 has the ability to make structural bonds that can absorb stress sock, and vibration.

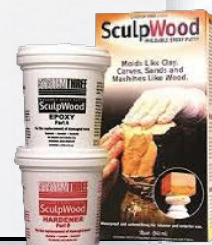

System Three MirrorCoat

MirrorCoat is a pourable, self-leveling bar and tabletop coating. It cures crystal clear. Has an exceptionally tough; scratch resistant, waterproof, alcohol proof finish.

System Three SCULPWOOD

Kneadable epoxy resin putty ideal for rebuilding compromised wood. It is easily sanded and will accept paint, screws and nails. Now available in a paste form as well.

System Three QUIKFAIR

QuikFair is a lightweight, micro-balloon-filled, fast-curing two-part epoxy fairing putty with excellent moisture resistance. The two color-coded parts have a non-sagging, butter-like consistency and are easily mixed to a third color.

System Three ROTFIX

Rot Fix is an easy to use, low viscosity epoxy wood sealer, primer, and consolidant for repair and restoration of rotted, deteriorated, dried out or spongy wood. It creates a sound, waterproof base for repair and restoration filler putty.

System Three COLD CURE

The Gold Standard in Laminating resin for marine and wood-working for over 40 years. Cures down to 35°F and even underwater.

System Three S-1 SEALER

S-1 is a two-part Clear Penetrating Epoxy Sealer. Mixed at a 1:1 ratio it is extremely effective at prolonging the service life of all woods, concrete, metals and fiberglass reinforced polyester.

PREMIUM COATINGS

Start Your Exterior Painting Job Early in the Day . . . So it Dries before the Dew!

RUST SCAT Alkyd Polyurethane

Durable, rust-preventive coating for metal substrates in commercial, institutional and residential applications. High gloss, non chalking and quick drying. Can be brushed, rolled or sprayed.

COMMAND Waterborne Polyurethane

Interior/Exterior extremely durable single component polyurethane. Dry to the touch in 15 minutes, ready for traffic in 24 hours. For use on doors, handrails, dry-wall, cabinets, shelving and concrete floors.

COROTECH

V440 Waterborne Amine Epoxy

Provides chemical abrasion and impact resistance equal to solvent based epoxies without the strong odor. Suitable for USDA inspected facilities. Great for walls and concrete floors for commercial and for residential use. Ideal for garage floors. Available in three standard colors and can be tinted to many others. Catalyst is required and sold separately. Coverage is approximately 475 square feet per gallon (3.78 litre). For best results concrete floors require etching for proper adhesion.

DECKOTE

For use on sundeck, porches, roof decks, stairs, landings, boat decks, tennis courts, railings, basement floors and walkways. New plywood decks require primer, base coat and color coat.

STIX Waterborne Primer

Stix is used for priming challenging, interior and exterior surfaces. For wood, metal, drywall, glass, some plastics, glossy paints and fiberglass. Water clean-up.

BLUE MAX Liquid Rubber WATERPROOF COATING

Blue Max® is a special blend of adhesive, high strength elastomeric liquid rubber. It is a new, impenetrable, rubber technology for waterproofing in extreme wet situations such as below grade foundations, basement walls, and cisterns. It is high in solids and dries to a tough 800% elastic membrane that resists cracking and peeling. Blue Max remains flexible from -30° to 150°F. Ames' Blue Max is impervious to water when applied in a uniform and seamless fashion with adequate millage. It flows into cracks and crevices as a liquid and sets up as a durable rubber to seal leaks wherever they occur.

Ames MAXIMUM-STRETCH

Maximum-Stretch™ is a thick, high quality rubber and acrylic elastomeric coating designed specifically for waterproofing, repairing and maintaining many different types of roofs. Maximum-Stretch has remarkable adhesion and is easy to apply.

SAFE-T-DECK

Safe-T-Deck™ is a water based, acrylic latex safety paint that is skid resistant. Designed for a variety of applications, it is a cost effective, way to revitalize deck surfaces. Comes in 6 different colors and it is tintable.

Ames SnowSeal Ideal for R.V and Mobile Home Roofs

Snow Seal® is a white, premium grade elastomeric roof coating and paint for sealing and saving roofs, reflecting sunlight, and dramatically lowering extreme temperatures to reduce cooling costs.

Ames SUPER PRIMER

Super Primer is a plastic sealant, primer and adhesive all in one. It can be used on concrete, block, brick, tile, EPDM rubber, stucco, wood, metal, and many hard-to stick surfaces. Super Primer leaves a clear and slightly tacky surface that substantially increases adhesion for Ames' coatings.

SUPER ELASTO-BARRIER

Elasto-Barrier™ is a water-based, liquid dual-rubber coating used primarily for roof and deck waterproofing applications. It also works well as a primer for other Ames products. It significantly out performs asphalt emulsions making it especially effective in saving old tar roof systems. Super-Elasto Barrier™ stretches up to 1000%

Our Staff Test many of our Products so
They can Pass On their Experience to you!

MasterClear Supreme VARNISH

MasterClear® Supreme is a water base self-crosslinking acrylic/aliphatic polyurethane protective topcoat that dries quickly to a crystal clear finish. It has outstanding gloss retention and clarity with added UV Blockers and Absorbers that greatly reduce the sun's graying and fading effects on stained wood and painted surfaces, keeping them looking fresh for years. The Innovative Low VOC Formula has very little odor and exceeds all National and Regional VOC category requirements!

Available in Dead Flat

WATER-BASED Concrete Stain

SmartStain Tintable Concrete Stain is a clear, water-based, nano-acrylic tintable stain that is available in 3 options, Solid, Semi-Transparent & Translucent. SmartStain beautifies and enhances both exterior and interior concrete. It's used for staining concrete and other porous masonry surfaces giving it the look of concrete poured with integral color. The eco-friendly formula is the safe, user-friendly alternative to hazardous solvent and acid-based stains.

INSLX SWIMMING POOL PAINT

Waterborne Swimming Pool Paint is a low-VOC coating that can be applied to slightly damp surfaces, dries quickly for recoating, and withstands continuous submersion in fresh or salt water. Use this Pool Paint over most types of properly prepared existing pool paints, as well as bare concrete or plaster, marcite, gunite, and other masonry surfaces in sound condition.

SPECIALTY COATINGS

RUST-OLEUM Food & Beverage

A modified alkyd supports the unique demands of a food- or beverage-processing facility. Prevents mold and mildew, resists humidity and high heat up to 212F/ 100C. Can be applied to surfaces as cold as 18F/ -7C. Accepted for use in federally registered Canadian food facilities; less than 340 VOCs

INSLX Fire Retardant Paint

Fire Retardant Paint expands and forms a thick cellular char blanket, called intumescence, when attacked by flame. This latex paint retards flame spread, minimizes smoke development, and applies like a conventional latex flat paint.

Safe Waterbased PAINT STRIPPER

EZ Strip™ Professional Strength Paint and Varnish Stripper removes interior and exterior paints and varnishes from various surfaces.

INSLX TRAFFIC PAINT

Latex Traffic Paint is a fast-drying, exterior/interior acrylic latex line marking paint. It can be applied with a brush, roller, or hand or automatic line markers.

Big Stretch

Homes move. Window frames pull away from the siding or doors shift against the brick. They move when the temperature changes, the rain falls, the wind blows or the earth quakes. That's why you need Big Stretch® high performance water-based sealant.

Lexel

Lexel® is the "duct tape" of all caulks. Super-elastic. Superior adhesion. Paintable. It seals around anything: tubs and shower stalls, sinks and counter tops, window frames and door frames, PVC and metal pipes. Apply to wet or dry surfaces, indoors and outdoors.

Slab CONCRETE REPAIR

Concrete cracks appear in driveways, sidewalks, garages, patios, pool decks, and basements. Cracks harbor weeds and anthills. Slab® is an easy-to-apply water-based sealant that really stretches – up to 300% of the original crack.

Through the Roof CLEAR SEALANT

This ultra-clear roof, gutter, and flashing caulk goes on easy and remains elastic year after year to permanently seal those nagging leaks. It can even be applied in the middle of a rain storm! Just say NO to leaks and repeated repairs

CLEANING SOLUTIONS

MOLDEX MOLD KILLER

Kills Mold & Mildew. Inhibits the Growth of Mold & Mildew. Fungicide, Mildewstat, Virucide*, Deodorizer and Disinfectant.

Also available:
Moldex Stain Remover
Moldex Sealant

GEL-GLOSS

Gel-Gloss contains non-harmful abrasive cleaning agents that remove surface oxidation and light scratches, while leaving behind a protective carnauba wax coating. Cleans, protects and restores luster while providing a long lasting protective finish.

E-CLOTH

Clean Without Chemicals

E-cloth microfiber cleaning cloths can be used on any hard surface within the home, in the car, on a boat, anywhere. True Chemical Free Cleaning - Removes thick dirt, grease, oil, grime and is proven to remove over 99% of bacteria from all hard surfaces, using just water. General Purpose Cloth \$10.99

Meguiar's OXIDATION REMOVER

Removes moderate oxidation, scratches, stains and tough water spots on all fiberglass gel coat marine or RV surfaces. Restores colour by effectively removing surface degradation.

Oil Stain Remover Pour N Restore

Pour-N-Restore® Oil Stain Remover is the best concrete oil stain remover in the industry. When you are wondering how to remove oil stains from concrete, trust our proven technology to get rid of even your toughest oil stains.

E-CLOTH CLEANING PAD

For Bathroom Cleaning, Shower Cleaning, sinks, Bathtubs, Showers, and on: stainless steel, enamel, ceramic, glass, chrome, granite, marble, slate, quartz, tile and wood

De-solv-it CONTRACTORS SOLVENT

Designed for the contractor, this industrial degreaser workhorse is exceptional at cleaning concrete, removing silicone, caulk, putty nails, floor adhesive, water seal, roofing tar and more!

Dri-Z-Air

Safely removes and absorbs excess moisture and musty smells from the air. Great for home, boat, garage, closets, and storage units.

All Natural UNIQUE PRODUCTS

Marine Digest It

Guaranteed to make pump-outs a breeze by liquifying everything in your gray and black holding tanks, including household toilet paper. It's also a deodorizer for bilge areas.

Super Digest It

Super Digest-It is an effective, safe, drain cleaner and opener. This natural drain opener will unclog most drains overnight without using any harsh chemicals that could injure your family or the environment. You can use this safe drain opener in your garbage disposals, bathtubs, and toilets.

Eliminate Odors with CLEAROMA

Clearoma® is a full strength odor control product that has been specifically designed to eliminate all repugnant odors without leaving a harsh chemical smell. Ideal for removal of smoke odors and other noxious smells.

FIVE MINUTE MOLD TEST NEW

Easy-to-use...3 steps: sample area, snap bulb to wet and add directly to test. Test for unhealthy mold and get accurate results in 5 minutes while avoiding the high cost of hiring mold inspectors and laboratory testing free consultation

Environmentally Responsible Cleaners

HOLY COW

Holy Cow cleaning products are so versatile that they can clean almost anything. From kitchens, bathrooms, granite and stainless steel, windows, hard surfaces, floor and carpet, upholstery and laundry, to outdoor grills and patio furniture, wheels and tires.

We Travel to 6 Trade Shows a Year to Find Unique Products for our Customers!

PROBLEM SOLVERS

NEW

NEWLOOK GRAF-X GRAFFITI CLEANER

NewLook Graf-X Cleaner™ is a fast-acting graffiti and paint remover. The water-based, biodegradable formula is more eco-friendly and works faster than most solvent based graffiti removers.

NEWLOOK GRAF-X ANTI-GRAFFITI Coating

NewLook Graf-X WB™ is a permanent anti-graffiti coating designed to protect a variety of vertical masonry surfaces from graffiti. The water based formula leverages advanced polymeric nano-fusion technology that penetrates deeply and yields a clear, breathable film for long-lasting protection. Applications include concrete, exposed aggregate, brick, masonry blocks, natural stone and other porous surfaces.

FLEX SEAL LIQUID

Flex Seal-FLEX SEAL LIQUID® is actually liquid rubberized coating in a can! Similar to our Flex Seal Spray, but now you can brush it, roll it, dip it or pour it anywhere you need a watertight, flexible coating or sealant. Starts out as a thick liquid and dries to a super strong and flexible, watertight, rubberized coating that protects and stops leaks fast. Qts & Gallons

FLEX TAPE

A super strong, rubberized, waterproof tape that can patch, bond, seal and repair virtually everything! FLEX TAPE is specially formulated with a thick, flexible, rubberized backing that conforms to any shape or object! FLEX TAPE can be applied hot or cold, wet or dry.. even underwater! 4"x 60" 8"x 60" 12"x 120"

NOVUS #1 PLASTIC POLISH

Gently cleans all plastics without scratching. Leaves a lustrous shine that resists fogging, repels dust, and eliminates static. Resists finger marking. Contains no abrasives or harsh chemicals. Leaves a smooth, clean, greaseless shine

Also available
Novus 2 - for Light Scratches
Novus 3 - for Deep Scratches

CRITICAL MARINE GLASS PROTECTION

Everything you need to Clean, Protect & Maintain all Boat Glass, Maximizes Visibility in Poor Weather Conditions Protects Against Chips, Pitting, Cracks & Fine Scratches Soiling, Mineral & Salt Build-Up, One Application Lasts All Season.

\$19.99

FIBER-FIX

Combines industrial strength fibers and specialized resin into a repair wrap that hardens like steel providing a permanent fix. Activate the repair wrap in water, wrap tightly around the broken object, and your item will be repaired within 10-15 minutes.

Sizes 1"x40", 2"x50", 4"x60"

Gelcoat Finish Restoration POLIGLOW

Poli Glow is a proven concept in boat polish and 'NOT' a wax. It is easily applied. It wipes on without the need for rubbing or buffing. It will not wash off with soap and water. And lasts for over 12 months!

INVISIBLE GLASS

Formulated to dissolve and remove the unique film that builds up on the interior windshield. Leaves glass clean and clear with no sticky haze. Cleans glass so well you will think it is invisible!

\$10.99
22oz

Enzyme Powered GRIME MONSTER

GRIME MONSTER is an enzymatic multi-surface cleaner that "eats" grease, oil, urine and hydrocarbons off most hard surfaces. Using specially formulated enzymes, GRIME MONSTER, is able to breakdown grime leaving surfaces clean and free of contaminants.

The Original PLASTI DIP

Plasti Dip is an air-dry, specialty rubber coating. In fact, it's the original peelable, flexible, insulating, non-slip, durable rubber coating. The Plasti Dip product line provides a wide range of coating solutions. With a wide selection of colors and enhancers the possibilities are endless!

TEAR-AID VINYL REPAIR PATCH

SUBSTRATES

Polycarbonate SHEET

Based on high performance polycarbonate resin, this product offers excellent clarity with excellent aesthetic properties, high impact strength and ease of formability.

Acrylic SHEET, ROD & TUBE

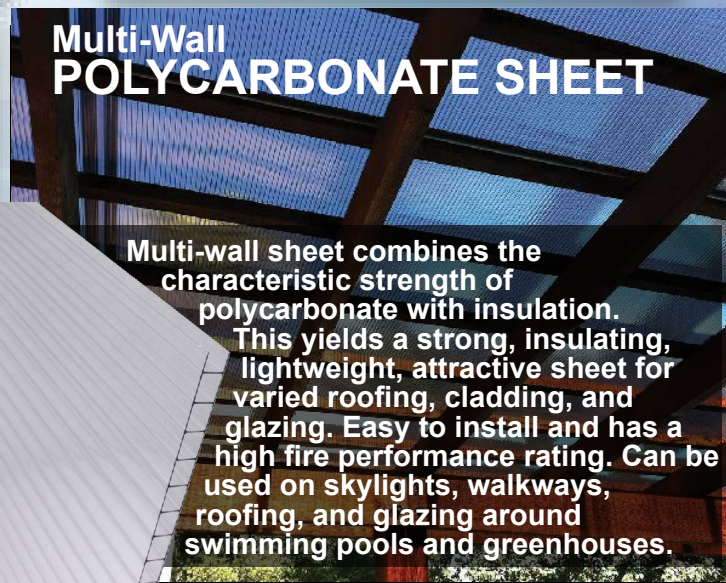

Acrylic sheet is economical and provides high optical characteristics and low stress levels. Sheet is great for plastic windows, sundeck covers, display cases, and many other uses.

Multi-Wall POLYCARBONATE SHEET

Multi-wall sheet combines the characteristic strength of polycarbonate with insulation.

This yields a strong, insulating, lightweight, attractive sheet for varied roofing, cladding, and glazing. Easy to install and has a high fire performance rating. Can be used on skylights, walkways, roofing, and glazing around swimming pools and greenhouses.

STARBOARD

The ultimate building material, Starboard is the original marine-grade polymer. It will withstand the harshest marine conditions, will not rot or discolor, and will not delaminate.

SINTRA PVC SHEET

PVC foam board that is very durable. Can be used for photo mounting, display construction, signage and a variety of other uses. Excellent for out door use.

ABS

ABS sheet is the most widely used thermoplastic today. ABS has excellent surface appearance, it is strong and tougher than high impact polystyrene and is resistance to high temperatures and chemicals. White or Black Haircell in 3.0, 4.5 and 6.0 mm

SIGN VINYL

We carry a large variety of sign vinyls for the professional or the home owner. 15" and 24" available in a wide range of colors. Available by the yard or by the roll.

COROPLAST

The material of choice for today's screen printing industry. Ideal for indoor and outdoor applications. It is tougher than corrugated fiberboard and lighter than extruded plastic sheet. It is also waterproof and stain resistant.

SIMPO SIGN BOARD

Simpo Sign II is a double sided A-Frame sign stand. It has a quick-sign feature where signs can be easily slid in and out. The grabber hinge keeps the frame from opening too far. 22"x28" and 24"x36" sizes available.

Custom-Designed Prefabricated Railing Systems

POWER-SHOT Hockey Practice Pad

Hone your hockey skills with the Practice Pad from Industrial Plastics & Paints. Built to take the constant pounding required to perfect your slapshot and yet provide the surface to allow you to practice your stick handling skills. Simply lay the sheet down on any hard surface and you are ready to practice your way into the NHL! 36"x48" 48"x60" or 48" x 96"

We Pride Ourselves in Sourcing many
"Hard to Find" Products for Customers

Velcro Brand HOOK & LOOP FASTENER

Velcro hook & loop is a nylon, self adhesive hook & loop system. The world standard touch fasteners. Peel the release liner from the back of the Velcro, position the fabric and press firmly.

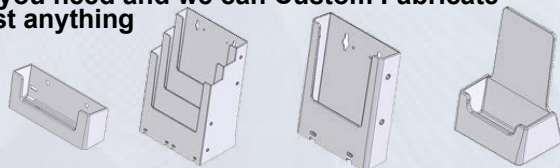

Available by the foot or by the roll.

3/4", 1" & 2" width available.

BROCHURE HOLDERS

Industrial Plastics & Paints has many options available for your Brochure and Single Sheet needs. Whether you need a Wall mount or Free Standing model, we have what you need. Any of our holders can also be customized by adding a Business Cards holder. If your needs are outside the box, we can handle that too. Just tell us what you need and we can Custom Fabricate almost anything

Environmental SPILL KITS

We take the guess-work out of what spill supplies you need for Boat, Home or Commercial endeavour including Construction Job Site packages. With Environmental Fines at risk don't get caught without the right supplies. See us first!

Standard
& Custom

Polyweave TARPS

Our most popular tarp, for use under continuous outdoor exposure. High density woven fabric along with UV coatings on both sides provide extended life in sunlight. Available in many sizes, weights and colors.

Rod & Sheet NYLON STOCK

We stock a variety of Nylon types. The most common is Nylon 66 but there are other Nylons that contain additives to extend their properties beyond the 66 grade. Please contact your local store with your requirements so we can match your needs to right type of Nylon.

Ultra High Molecular Weight Poly UHMW-PE

UHMWPE has a low moisture absorption rate, a very low coefficient of friction, is self lubricating and is highly resistant to abrasion. UHMW has the highest impact strength of any thermoplastic presently made.

CONVEX MIRRORS

Indoor/Outdoor 160° wide angle plexiglas mirror It can be mounted strategically for both safety and surveillance.
